MISSION STATEMENT

The Oglesby Union is a diverse and engaging community that fosters individual and collective learning by providing outstanding services and opportunities for involvement.

PURPOSE

The union is the community center of the university, serving students, faculty, staff, alumni, and guests. By whatever form or name, a college union is an organization offering a variety of programs, activities, services, and facilities that, when taken together, represent a well-considered plan for the community life of the university.

The union serves as a unifying force that honors each individual and values diversity. The union fosters a sense of community that cultivates enduring loyalty to the university.

Traditionally considered the “hearthstone” or “living room” of the campus, today’s union is the gathering place of the university. The union provides services and conveniences that members of the college community need in their daily lives and creates an environment for getting to know and understand others through formal and informal associations.

“[The ASLC] can be many things to many people - a business, a safe space, a place to disappear into a movie/video game, an educational opportunity from the speakers and co-sponsorships, and if you are lucky like I was it can be all of those things plus a place where I cultivated lifelong friendships with the team that we all found together.”

- Former ASLC Volunteer

“The relatively low-stakes of initially getting involved on a purely voluntary basis made for a quick and easy entry to the organization, but the added responsibilities (personal and professional) that came with getting hired at the ASLC added gravity to an ‘extracurricular’ -- over time, my obligations to the ASLC grew to be almost equally as important as my academics.”

Much of 2017 was spent planning for the upcoming union renovation project. By replacing our student union, we will better serve our community and meet the needs of our diverse FSU population. This opportunity will grant us the ability to accommodate more student groups, facilitate more engagement, host more and better-quality events and meetings, etc. We are committed to preserving the history and traditions of the Oglesby Union while looking to the future and improving the functionality of the space.

We have hired Workshop Architects based in Milwaukee and Architects Lewis + Whitlock based in Tallahassee. Construction will begin in summer of 2018 and the anticipated opening of the new building is fall of 2020.
